Returned to applicant for correction.....

Corrected application filed.....

Map filed AUG 30 1995

The applicant Pandorado Mining Company

P.O. BOX 588, of Mina,  
Street and No. or P.O. Box No. City or Town

Nevada 89422, hereby makeS application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Nevada corporation, February 3, 1994

1. The source of the proposed appropriation is underground  
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.0445 CFS second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for mining & milling  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under No. 12. "Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point NW $\frac{1}{4}$  SE $\frac{1}{4}$ , Section 21, T8N, R32E  
Describe as being within a 40-acre subdivision of public

M.D.M. from which point the N $\frac{1}{4}$  corner of said Section 21 bears North  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

12° 43' 56"W a distance of 3,871.61 feet.

6. Place of use NW $\frac{1}{4}$  SE $\frac{1}{4}$ , Section 21, T8N R32E M.D.M.  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) piping  
State manner in which water is to be diverted, i.e. diversion structure, ditches and

flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$1,000.00
10. Estimated time required to construct works 1 year  
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use 2 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:  
25.63 MGA

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0445 cubic feet per second, but not to exceed 9.54 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 24, 1997

Proof of completion of work shall be filed before June 24, 1997

Application of water to beneficial use shall be filed on or before May 24, 1999

Proof of the application of water to beneficial use shall be filed on or before June 24, 1999

Map in support of proof of beneficial use shall be filed on or before N/A

~~(D)-2145 (Rev. 9-89)~~

(PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.
